HYPERLOCAL COMMUNITY MEDIA APP PROPOSAL

Love Where You Live.

A community platform designed to help Linden residents rediscover their neighbourhood, support local businesses, and stay connected to everything happening around them.

Prepared for:

Linden Community Association

Presented by:

JC Snooke

Resident of Linden since 2015

Owner – On 9th Street Guesthouse

Founder – Hello Hyperlocal

Website: www.hellohyperlocal | Contact: hello@hellohyperlocal.co.za

Introduction & Project Overview

Project
overview

LINDEN is already one of Johannesburg's most vibrant suburbs. It has incredible independent businesses, beautiful "parks", active community organisations, great schools and residents who genuinely care about where they live.

However, despite this strong sense of community, communication remains **FRAGMENTED**

Important information is spread across Facebook groups, WhatsApp chats, emails, websites and word of mouth.

Residents often **MISS** local events, businesses struggle to reach nearby customers, and community organisations face the challenge of communicating with everyone effectively.

HELLO LINDEN aims to solve this.

Not by replacing existing community channels, but by bringing them together through one **TRUSTED** platform dedicated entirely to Linden.

OUR VISION

To help people **REDISCOVER** their neighbourhood.
By making it easier to discover local businesses,
community events, neighbourhood news and the
people who make Linden such a special place to
live.

Our belief is simple:
When people rediscover their neighbourhood,
they begin to **LOVE WHERE THEY LIVE.**

WHY START WITH LINDEN?

One simple reason,

It is **HOME.**

As residents of Linden for more than a decade, and as local business owners through On 9th Street Guesthouse, we experience first-hand what makes this suburb **UNIQUE**

We also see the opportunities to strengthen communication, celebrate local businesses and create even stronger connections within the community.

Rather than launching nationally, we believe **HELLO** should first prove itself here—working alongside the LCA and the wider community to create something that genuinely adds value.

THE OPPORTUNITY

Hello Linden will provide one trusted place where residents can:

- Discover local businesses
- Stay informed about community news
- Find local events
- Support neighbourhood initiatives
- Access trusted local services
- Learn about new restaurants and cafés
- Discover hidden gems
- Connect with community organisations
- Share opportunities with neighbours

Everything local.
All in one place.

BENEFITS FOR RESIDENTS

Residents receive a free platform that helps them stay connected to the neighbourhood they call home.

Benefits include:

- Community updates
- Local events calendar
- Weekend guides
- Restaurant and café recommendations
- Special offers from local businesses
- Local stories
- Jobs and opportunities
- Lost & Found
- Community notices
- **TRUSTED** local directory

BENEFITS FOR LOCAL BUSINESSES

Hello Linden creates an affordable way for local businesses to reach people who actually live in the area.

Rather than broad advertising, businesses can engage directly with nearby residents through:

- Business profiles
- Local specials
- Featured stories
- Event promotion
- Community partnerships
- Marketplace listings

This encourages residents to discover and support businesses within their own neighbourhood, helping strengthen the local economy.

BENEFITS FOR THE

LINDEN
COMMUNITY ASSOCIATION

Hello Linden is designed to complement—not replace—the work already being done by the Linden Community Association. The platform provides another communication channel through which the LCA can:

- Share important community updates
- Promote local initiatives
- Increase awareness of neighbourhood projects
- Encourage participation in community events
- Strengthen engagement with residents

Our vision is to work alongside the LCA to ensure information reaches as many residents as possible in an engaging and accessible way.

Residents
download the app
or subscribe to the
weekly newsletter.

Community
organisations
share updates and
events.

Together, the
platform becomes
a living guide to
Linden.

Businesses create
profiles and
promote offers

Residents discover
what's happening
around them.

Important support
and emergency
contact links will
be available

ALL IN
ONE
PLACE

One unique aspect of Hello Linden is a modern community marketplace.

Residents will be able to:

- Advertise garage sales
- Offer tutoring
- Find local services
- Promote community events
- Advertise jobs
- Buy and sell locally
- Support charities
- Find volunteers

Small paid listings from businesses and service providers help fund the platform while community notices remain free wherever possible.

This approach keeps Hello Linden sustainable while ensuring residents continue to enjoy free access to the platform.

SUSTAINABILITY

Hello Linden is designed to be financially self-sustaining.

Rather than relying on community funding, revenue is generated through affordable business participation, premium listings, sponsored content and marketplace advertising.

This allows the platform to continue growing while remaining free for residents and beneficial to the wider community.

OUR COMMITMENT

Hello Linden is committed to:

- Supporting local businesses.
- Celebrating local people.
- Promoting community organisations.
- Sharing trusted information.
- Creating meaningful local connections.
- Helping residents rediscover what makes Linden special.
